

**8th Workshop on Science with the New Generation of High
Energy Gamma-ray Experiments
Gamma-ray Astrophysics in the Multimessenger context**

Trieste (Italy), September 8 -10, 2010

Second Circular

The 2010 edition of the Scineghe workshop will be held from Wednesday Sep. 8 to Friday Sep. 10, 2010 in Trieste, at the Starhotels Savoia Excelsior Palace, in the centre of Trieste, directly on the seafront.

More information on the workshop venue can be found on the webpage:

http://www.starhotels.com/hotel/savoia_excelsior_triESTE/starhotels_savoia_excelsior.php?idalb=17

SciNeGHE 2010 will focus on the emission mechanisms governing gamma-ray sources using complementary information coming from the multiwavelength and multimessenger (cosmic ray, neutrino, gravitational wave) approach.

We are pleased to announce that on September 7, a series of talks will highlight some scientific fields in which prof. Guido Barbiellini Amidei has been active during his very productive scientific career.

The preliminary version of scientific program is now online on the workshop website:

<http://www.ts.infn.it/events/scineghe2010/programmaScientifico.php>

We remind all participants to register. The **workshop fee** is 250,00 €, and it includes registration, coffee breaks, the social dinner and a copy of the proceedings volume.

The **fee for accompanying persons** attending the social dinner is 60,00 €.

The fee has to be paid, *cash only*, at the onsite registration desk.

The registration and secretarial desk opens on Wednesday September 8 at 8:15 in the Starhotels Savoia Excelsior Palace, and till 10 September 2010, it will be open in parallel to the Workshop scientific sessions.

We remind also that all participants are expected to book the hotel themselves. Information on the workshop hotel can be found on the webpage:

<http://www.ts.infn.it/events/scineghe2010/alberghi.php>

The proceedings will be published by Nuovo Cimento C.

The workshop will be preceded by a two days hands-on session on data analysis of gamma-ray and cosmic-ray experiments organized in collaboration with the International School of Space Science of the Consorzio Interuniversitario di Fisica Spaziale (C.I.F.S.).

Please, check the website for the latest news:
